

**“We strive to use the most earth-friendly products in our business. WE WON’T PURCHASE KIMBERLY-CLARK PRODUCTS. Not only does it matter to us, it matters to our customers.”**

# It's a real shame

that because of one company, Kimberly-Clark, forests that have been standing for over 10,000 years are being flushed down toilets all across North America.

More than 650 businesses from all around the world are taking action to protect ancient forests like the North American Boreal. These Forest Friendly businesses are refusing to purchase and use disposable tissue products, including Kleenex facial tissue, made by Kimberly-Clark because the company continues to destroy ancient forests.

**JOIN THE GROWING NUMBER OF RESPONSIBLE BUSINESSES THAT ARE SAYING NO TO FOREST DESTRUCTION.**
